

## **STEP-BY-STEP GUIDE TO EXPORTING FISHERY PRODUCTS AND BIVALVE MOLLUSCS FROM LIST I COUNTRIES TO THE UK**

This guide summarises advice on exports of fishery products and bivalve molluscs from List I countries to the UK. List I countries are non-European Union (EU) countries that have been visited by the European Commission for hygiene checks and are permitted to import fishery products or bivalve molluscs to the EU under specific conditions.

If your product contains fishery products such as crustaceans (these include prawns, lobsters, crayfish, crabs and shrimps), all cephalopods (these include octopus, squid and cuttlefish), aquaculture products (these include farmed salmon, trout, prawns or shrimps), but not mammals such as whales, then refer to Table 1.

If your product contains bivalve molluscs (these include oysters, mussels, clams, cockles and scallops), echinoderms (these include sea urchins and sea cucumbers), tunicates (these include sea squirts) or marine gastropods (these include whelks, winkles and abalone), then refer to Table 2.

### **Using Table 1 and Table 2**

Two tables showing List I countries authorised to export to the UK are below. Table 1 applies to fishery products and Table 2 applies to products such as bivalve molluscs. All consignments of fishery products or bivalve molluscs must come from authorised establishments and be accompanied by a health certificate as set out in Commission Regulation (EC) No 1664/2006 (see link to Regulation in the tables). For USA and New Zealand different certification requirements apply, and Table 1 gives the link to the appropriate Commission Decision and health certificate.

Notes on further import restrictions are included.

A list of approved establishments and production areas can be found on the European Commission web-site at:

**List I countries or approved establishments approved to import fishery products and bivalve molluscs:**

[https://sanco.ec.europa.eu/traces/output/listsPerActivity\\_en.htm](https://sanco.ec.europa.eu/traces/output/listsPerActivity_en.htm)

## **Before using the tables below you should know what your product contains.**

If the exporting country is not listed in the appropriate product table, then the country may be a List II country and other rules will apply. More information on List II countries can be found in the step-by-step guide to importing fishery products and bivalve molluscs from List II countries at [www.food.gov.uk/multimedia/pdfs/alistiiguide.pdf](http://www.food.gov.uk/multimedia/pdfs/alistiiguide.pdf).

### **Important information**

1. Any country not on Table 1 will not be able to export fishery products to the UK, and any country not on Table 2 will not be able to export bivalve molluscs, echinoderms, tunicates and marine gastropods in whatever form, unless those countries are authorised List II countries for these imports and have a bilateral agreement with the UK. Further information about List II countries can be found at [www.food.gov.uk/multimedia/pdfs/alistiiguide.pdf](http://www.food.gov.uk/multimedia/pdfs/alistiiguide.pdf).
2. All consignments should be clearly and indelibly labelled showing the country of origin and the approved establishment number in accordance with Annex II of Regulation (EC) No 853/2004. Further details can be found in FIN/06/2007 at [http://www.food.gov.uk/foodindustry/imports/want\\_to\\_import/fisheryproducts/](http://www.food.gov.uk/foodindustry/imports/want_to_import/fisheryproducts/)
3. Live fish or shellfish being imported into the UK require an import licence, in addition to health certification laid down in Annex II to [Regulation \(EC\) No 1664/2006](#). Licences are issued by the 'Fish Health Inspectorate', which is part of the Centre for Environment, Fisheries & Aquaculture Science (CEFAS). For an application form contact CEFAS on 01305 206673, or by fax on 01305 206602. For more information on CEFAS see their web-site at [www.cefasc.co.uk](http://www.cefasc.co.uk).
4. Further information about veterinary checks and notification of Border Inspection Posts can be found at:  
<http://www.food.gov.uk/foodindustry/imports/beforeimporting/pointofentry>
5. For further information about additional import restrictions please contact the Imported Food Helpline, Tel: 020 7276 8018,  
Email: [imported.food@foodstandards.gsi.gov.uk](mailto:imported.food@foodstandards.gsi.gov.uk).
