

# Consumer Safety Notice

## Dairylea Lunchables Ham Stack'ems (130g Snack Pack and 200ml Juice Drink)

Kraft Foods has found that, as a result of a packaging error, a number of *Dairylea Lunchables Ham Stack'ems* packs contain the *Dairylea Lunchables Hotdogs* variety. Investigations show that this is due to an isolated manufacturing incident at a Kraft Foods factory in Belgium.

As a result of the error, the affected packs do not show the correct ingredients and allergen advisory statement, which for *Dairylea Lunchables Hotdogs* should state, "May contain traces of nuts, milk protein, soya protein and poppy, sesame and sunflower seeds."

There is no quality problem with this product other than the packaging error. Therefore, it is safe to eat if you do not suffer allergies to the materials stated above.

### IF YOU HAVE THIS PRODUCT IN YOUR HOME NOW, HERE'S WHAT TO DO

1. Check if it is the product batch affected by this problem - see the details below. Only this product is potentially affected. All other varieties are not affected.
2. Best Before Date and Lot Code are printed on the end of the pack, as shown above.

Product affected	Best Before Date / Lot Code	Bought from
Dairylea Lunchables Ham Stack'ems	Best Before Date 21.06.05 with lot codes beginning NAC3	ASDA Co-op Stores Kwik Save Sainsbury's Somersetfield

### Products bought in the Republic of Ireland are not affected.

3. If you have a potentially affected pack, check the contents. If it contains the incorrect contents (hot dog sausages, bread rolls, cheese strips and ketchup) please follow the instructions below.
4. Do not take the product back to the shop. Do not return the product to us.
5. Phone us **FREE 0800 555 530**, stating where and when the product was purchased and quoting the Best Before Date and Lot Code printed on one end of the pack.
