This consultation will be of most interest to:?

- Competent Authorities - District Councils
- Food businesses?and industry trade bodies
- Awarding bodies for environmental health professionals??
- Trade unions and expert groups may also have an interest?

Consultation subject

The Code sets out instructions and criteria to which District Councils in Northern Ireland must have regard when discharging their duties in relation to the delivery of official food control activities. The Code requires regular review and revision to ensure that it reflects current priorities, policy and legislative requirements so that the delivery of food control activities remain effective, consistent and proportionate. The FSA is required to consult on proposed amendments to the Code.

Purpose of this consultation

This consultation seeks stakeholders' views on proposed changes to the Northern Ireland Code and Practice Guidance. The key proposals include:

1. an updated risk-based approach to the prioritisation and timescales for undertaking initial food hygiene official controls of new food establishments
2. enabling, in certain circumstances, an establishment's food hygiene intervention risk rating to be amended following a wider range of official control methods and techniques, including those undertaken remotely
3. extending the activities that officers who do not hold a specified qualification for food hygiene or standards, can, if competent, undertake
4. a clarification in approach to interventions at food hygiene establishments that fall into risk category E for food hygiene
5. removal of a prescriptive number of hours required for continuing professional development
6. other amendments to reflect legislative change, provide clarity, improve consistency, and keep pace with current practices
