

Booths recalls Aberdeen Angus Beef Meatballs because of undeclared wheat (gluten)

Booths is recalling Aberdeen Angus Beef Meatballs because they contain wheat (gluten) which is not mentioned on the label, due to a packing error causing the product to contain burgers instead of meatballs. The packaging states that the product is gluten free which is incorrect. This means the product is a possible health risk for anyone with coeliac disease, and/or an allergy or intolerance to wheat or gluten.

Product details

Aberdeen Angus Beef Meatballs

Pack size	288g
Use by	13 August 2025

Risk statement

Allergen(s): Wheat (gluten)

This product contains wheat making it a possible health risk for anyone with an allergy or intolerance to wheat or gluten.

Action taken by the company

Booths is recalling the above product from customers and has contacted the relevant allergy support organisations, which will tell their members about the recall. The company has also issued a point-of-sale notice to its customers. These notices explain to customers why the product is being recalled and tell them what to do if they have bought the product. Please see the attached notice.

Our advice to consumers

If you have bought the above product and have an allergy or intolerance to wheat or gluten, do not eat it. Instead return it to the store from where it was bought for a full refund.

About allergy alerts

Sometimes there will be a problem with a food product that means it should not be sold. Then it might be 'withdrawn' (taken off the shelves) or 'recalled' (when customers are asked to return the product). Sometimes foods have to be withdrawn or recalled if there is a risk to consumers because the allergy labelling is missing or incorrect or if there is any other food allergy risk. When there is a food allergy risk, the FSA will issue an Allergy Alert.
