

Sprouts and seeds intended for sprouting: question and answer guidance

Statws: Wedi dod i ben

Dyddiad lansio: 30 Gorffennaf 2015

Dyddiad cau: 30 Medi 2015

Imported fenugreek seeds used for sprouting were identified as the most likely source of contamination that caused the outbreak. The measures were introduced in 2013 in the form of four Commission regulations.

About the guidance

The question and answer guidance is grouped by the four areas of legislation:

- approval of establishments
- microbiological criteria
- traceability
- imports

We welcome your views on the content and the format of guidance, which can be found at the link below. The guidance will be amended and updated online.

When

Comments are required by Wednesday 30 September 2015.
