

Polish Specialities recalls Knoppers Wafers because of undeclared allergens

Polish Specialities is recalling Knoppers Wafers because it contains milk, peanuts and soya which are not mentioned on their labels. This means the product is a possible health risk for anyone with an allergy or intolerance to milk or milk constituents, and/or an allergy to peanuts and/or an allergy to soya. Only over stickered products are affected. This product is sold in Sainsburys stores only.

Product details

Risk statement

Allergen(s): Milk, peanuts and soya

This product contains milk, peanuts and soya making it a possible health risk for anyone with an allergy or intolerance to milk or milk constituents, and/or an allergy to peanuts and/or an allergy to soya.

Action taken by the company

Polish Specialities is recalling the above product from customers and has been advised to contact the relevant allergy support organisations, which will tell their members about the recall. The company has also issued a point-of-sale notice to its customers. These notices explain to customers why the product is being recalled and tell them what to do if they have bought the product. Please see the attached notice.

Our advice to consumers

If you have bought the above product and have an allergy or an intolerance to milk or milk constituents, and/or an allergy to peanuts and/or an allergy to soya, do not eat it. Instead return it to the Sainsburys store from where it was bought for a full refund.

About allergy alerts

Sometimes there will be a problem with a food product that means it should not be sold. Then it might be 'withdrawn' (taken off the shelves) or 'recalled' (when customers are asked to return the product). Sometimes foods have to be withdrawn or recalled if there is a risk to consumers because the allergy labelling is missing or incorrect or if there is any other food allergy risk. When there is a food allergy risk, the FSA will issue an Allergy Alert.
