

# Quorn Foods recalls Quorn Bites products because of undeclared mustard and milk

Quorn Food is recalling three variants of its Quorn Bites products (Sweet Chilli, Korma, and Garlic & Herb) because they contain mustard and milk which are not mentioned on the label. As a result of a packaging error some packs have been packaged incorrectly across the three variants. This means the products are a possible health risk for anyone with an allergy or intolerance to milk or milk constituents and / or an allergy to mustard.

## Product details

## **Our advice to consumers**

If you have bought any of the above products and have an allergy or intolerance to milk or milk constituents and / or an allergy to mustard do not eat it. Instead return it to the store from where it was bought for a full refund.

### **About allergy alerts**

Sometimes there will be a problem with a food product that means it should not be sold. Then it might be 'withdrawn' (taken off the shelves) or 'recalled' (when customers are asked to return the product). Sometimes foods have to be withdrawn or recalled if there is a risk to consumers because the allergy labelling is missing or incorrect or if there is any other food allergy risk. When there is a food allergy risk, the FSA will issue an Allergy Alert.
