

Regulating Our Future - Amendments to the Food Law Code of Practice (Wales)

Status Closed

Date launched 31 August 2018

Closing date 23 November 2018

About this consultation

This consultation is of interest to local authorities, food businesses and consumers in Wales

Consultation subject

The [Regulating Our Future](#) (ROF) Programme aims to modernise how food businesses in Wales, England and Northern Ireland are regulated, to ensure that our food is safe and what it says it is.

The Food Standards Agency is planning to review the Food Law Code of Practice (Code) for Wales to:

- change the process of food business registration
- make changes to the application of the food hygiene intervention rating scheme to ensure interventions are appropriately targeted to maximise the impact on non-compliant food businesses
- to recognise national inspection strategies
- obtain early views from stakeholders on other co-dependent aspects of the ROF programme still in development

Consultation purpose

The FSA welcome views on the proposals to amend the Code to operationalise the first phase of ROF related changes. These changes will:

- enable the new digital approach to the process of registration for food business
- enable the targeting of resources to maximise the impact on non-compliant businesses through amendments to the food establishment intervention rating scheme
- recognise NIS, creating better alignment between the Code and Primary Authority

Views are also invited to help inform the future development of local authority performance measures so more meaningful and real-time assessment of LA delivery of its obligations are possible.
