

Mr Dips recalls Cyprus Jasmine Tzatziki and Cyprus Jasmine Taramasalata due to undeclared allergens

Mr Dips is recalling Cyprus Jasmine Tzatziki because it contains milk which is not mentioned on the label, this means this product is a possible health risk for anyone with an allergy or intolerance to milk or milk constituents. Mr Dips is also recalling Cyprus Jasmine Taramasalata because its allergen label is missing and the product contains soya and may contain barley (gluten), oats (gluten), rye (gluten) and wheat (gluten), this means the product is a possible health risk for anyone with an allergy to soya and/or an allergy or intolerance to barley, gluten, oats, rye or wheat.

Risk statement

Cyprus Jasmine Tzatziki contains milk, making it a possible health risk for anyone with an allergy or intolerance to milk or milk constituents. Cyprus Jasmine Taramasalata contains soya and may contain barley (gluten), oats (gluten), rye (gluten) and wheat (gluten) making it a possible health risk for anyone with an allergy to soya and/or an allergy or intolerance to barley, gluten, oats, rye or wheat.

Action taken by the company

Mr Dips is recalling the above products from customers and have been advised to contact the

relevant allergy support organisations, which will tell their members about the recall.

Our advice to consumers

If you have bought the Cyprus Jasmine Tzatziki and have an allergy or intolerance to milk or milk constituents do not eat it. If you have bought the Cyprus Jasmine Taramasalata and have an allergy to soya and/or an allergy or intolerance to barley, gluten, oats, rye or wheat, do not eat it. Instead return it to the store from where it was bought for a full refund.

About allergy alerts

Sometimes there will be a problem with a food product that means it should not be sold. Then it might be 'withdrawn' (taken off the shelves) or 'recalled' (when customers are asked to return the product). Sometimes foods have to be withdrawn or recalled if there is a risk to consumers because the allergy labelling is missing or incorrect or if there is any other food allergy risk. When there is a food allergy risk, the FSA will issue an Allergy Alert.
