

## Calorie Wise businesses

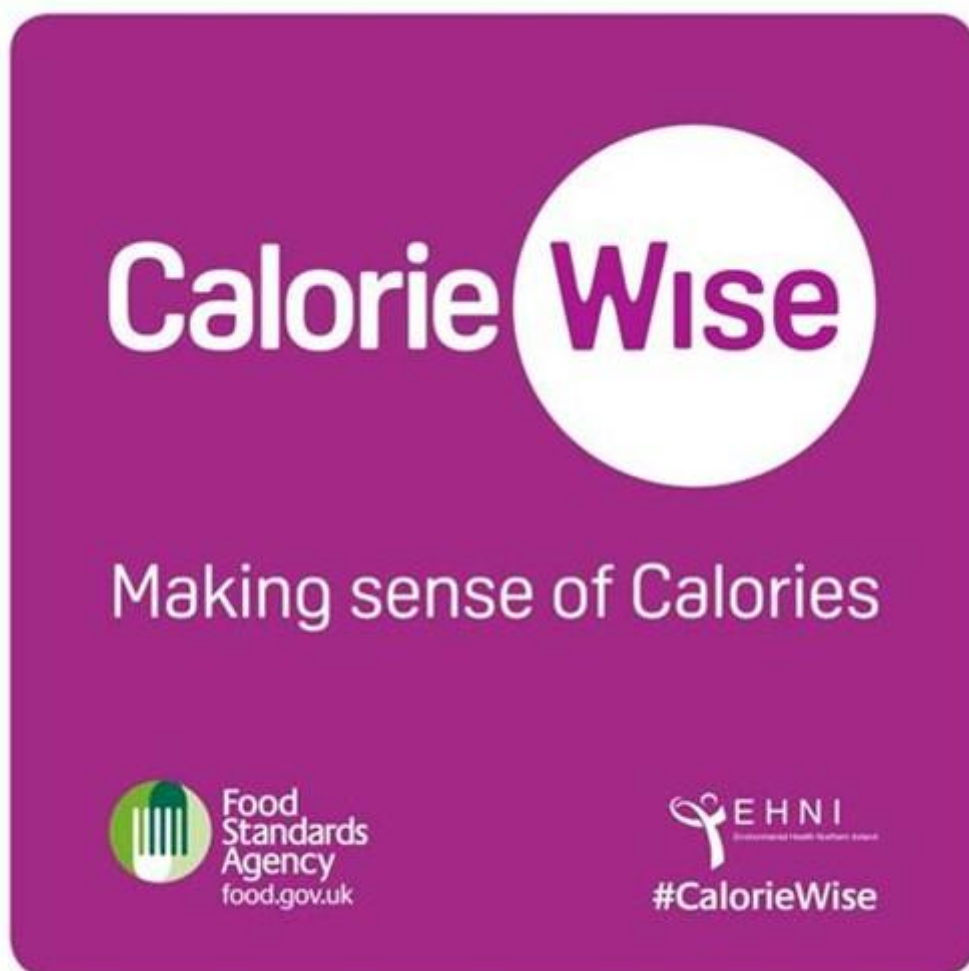

Calorie Wise is a free and voluntary scheme delivered by the Food Standards Agency (FSA) and councils in Northern Ireland.

### About Calorie Wise

The Calorie Wise scheme helps food businesses such as restaurants, takeaways, and cafés put calorie information on their menus. Knowing the number of calories you eat and drink can help ensure you don't have more than you need. The recommended calorie intake per day for adults is 2000Kcals for women and 2500Kcals for men.
