

Consultation on proposals for a new framework in England for the regulation of precision bred organisms used for food and animal feed

Status: Closed

Date launched: 8 November 2023

Closing date: 8 January 2024

Summary of responses

[Summary of stakeholder responses: Consultation on proposals for a new framework in England for the regulation of precision bred organisms used for food and animal feed](#)

Consultation on England-specific policy proposals with attendant effects on the other UK nations

Who this consultation may be of interest to?

- Consumers
- UK and international food/feed businesses and industry trade bodies
- Competent Authorities (UK Local Authorities and Port Health Authorities)
- Non-government organisations / Civil Society
- Third-party assurance organisations

Consultation subject

The [Genetic Technology \(Precision Breeding\) Act 2023](#) ('the Act') received Royal Assent on 23 March 2023. The Act, the substance of which applies in England, contains powers for the Secretary of State to make secondary legislation under Parts 3, 4 and 5 of the Act to make provision for regulating the placing on the market, in England, of PBOs for food/feed.

You can find out more about precision breeding and its application in our [precision breeding guidance for consumers](#).

Purpose of the consultation

This consultation seeks to collect views from stakeholders and interested parties on the proposals for regulation and the associated impact.

Consultation pack

This consultation pack provides the background information and details you will need to know to respond to questions in this consultation.
