

F&Y2 trends: Chapter 3: Food security

Introduction

“Food security exists when all people, at all times, have physical and economic access to sufficient, safe and nutritious food that meets their dietary needs and food preferences for an active and healthy life.” World Food Summit, 1996.

This chapter reports how food security and food bank use changed between Wave 1 (July 2020 to October 2020) and Wave 6 (October 2022 to January 2023).

Food security

Food and You 2: Wave 1-6

Following a period of stability between Wave 1 (July 2020 to October 2020) and Wave 3 (April 2021 to June 2021), the percentage of respondents classified as food secure (i.e., high or marginal) has notably decreased, from 85% in Wave 3 to 75% in Wave 6 (October 2022 to January 2023). Conversely, the percentage of respondents classified as food insecure (i.e., low or very low) increased, from 15% in Wave 3 to 25% in Wave 6 (Figure 13) ([footnote 1](#)).

Food bank use

Food and You 2: Wave 1-6

Since monitoring began in Wave 2 (November 2020 to June 2021) the percentage of respondents reporting that they had received a free parcel from a food bank or other emergency food provider in the previous 12 months has slightly decreased** (Figure 14) [\(footnote 2\)](#).

1. Question/Responses: Derived variable, see [USDA Food Security guidance](#) and Technical Report. Base= 40039, all respondents. Please note: Those with high or marginal food security are referred to as food secure. Those with low or very low food security are referred to as food insecure. More information on how food security is measured and how classifications are assigned and defined can be found in Annex A and on the [USDA Food Security website](#).

2. Question: In the last 12 months, have you, or anyone else in your household, received a free parcel of food from a food bank or other emergency food provider? Responses: Yes, No, Prefer not to say. Base= 19696, all online respondents. Please note: this question was not included in Wave 1. Please note: [in 2020, a government-led scheme delivered boxes of emergency food to clinically vulnerable people across the UK](#). This was a large scale scheme, for example, [over one million boxes were delivered to clinically vulnerable people in England](#).
