

# Food and You - Secondary Analysis - Waves 1-5

Research programme: Food and You  
Conducted by: NatCen Social Research

We have commissioned a series of secondary analysis papers using data from the Food and You survey. The papers will be published here as they are completed.

These cover:

- Trust in food and the food system
- Consumers with food hypersensitivities
- The current food landscape across England, Wales and Northern Ireland
- The food landscape in Wales

Food and You is our flagship consumer survey. It is a biennial, random probability survey providing information on reported behaviours, attitudes and knowledge relating to food safety and other food-related topics.
