

Update 1: Leo's Import Export & Trading Ltd recalls Buram Cerezli Nuts in Syrup because of possible contamination with foreign bodies and the risk of hydrogen cyanide release from apricot kernels

Leo's Import Export & Trading Ltd recalls Buram Nuts in Syrup because it may contain foreign bodies. The product also contains apricot kernels which pose a risk to human health because of the release of hydrogen cyanide when consumed, making the product unsafe to eat. This product recall has been updated because of the risk of hydrogen cyanide release from the apricot kernels and has been extended to include all best before dates.

Product details

Buram Cerezli Nuts in Syrup

Pack size	420g
Best before	All date codes

Risk statement

This product may contain foreign bodies and also contains apricot kernels. The release of hydrogen cyanide from the apricot kernels when consumed makes this product unsafe to eat.

About product recalls and withdrawals

If there is a problem with a food product that means it should not be sold, then it might be 'withdrawn' (taken off the shelves) or 'recalled' (when customers are asked to return the product). The FSA issues Product Recall Information Notices to let consumers and local authorities know about problems associated with food. In some cases, a 'Food Alert for Action' is issued. This provides local authorities with details of specific action to be taken on behalf of consumers.
