

# Asda recalls ASDA Chicken Dinners because of undeclared allergens

Asda is recalling ASDA Chicken Dinners because the product contains barley (gluten), egg and milk, which are not mentioned on the label. As a result of a packaging error, some packs contain ASDA Beef Dinners. This means the product is a possible health risk for anyone with coeliac disease, and/or an allergy or intolerance to barley or gluten and/or egg and/or milk or milk constituents.

## Our advice to consumers

If you have bought the above product and have with coeliac disease, and/or an allergy or intolerance to barley or gluten and/or egg and/or milk or milk constituents. , do not eat it. Instead, return the product to the nearest Asda store for a refund, with or without a receipt. For more information contact Asda Customer Relations on 0800 952 0101.

## About allergy alerts

Sometimes there will be a problem with a food product that means it should not be sold. Then it might be 'withdrawn' (taken off the shelves) or 'recalled' (when customers are asked to return the product). Sometimes foods have to be withdrawn or recalled if there is a risk to consumers because the allergy labelling is missing or incorrect or if there is any other food allergy risk. When there is a food allergy risk, the FSA will issue an Allergy Alert.
