Risk statement

Happy Hounds is recalling a range of its frozen raw dog food products on a precautionary basis as they may pose a risk to human and animal health. Sampling undertaken by the company has identified elevated levels of bacteria indicating a potential risk. A withdrawal and recall have been actioned by the company.

Action taken by the company

Happy Hounds is recalling the above products on a precautionary basis

Our advice to consumers

Our advice consumers (pet owners):

If you have bought any of the above products do not use them. Instead, return them to the store from where they were bought for a full refund.

When handling and serving raw pet food it is always advised to clean utensils and feeding bowls thoroughly after use. Consumers should wash hands thoroughly after handling raw pet food, bowls, utensils or after contact with the faeces of animals. Raw pet food should be stored separately from any food (especially ready to eat foods). Care should be taken when defrosting to avoid cross contamination of foods and surfaces.

About product recalls and withdrawals

If there is a problem with a food product that means it should not be sold, then it might be 'withdrawn' (taken off the shelves) or 'recalled' (when customers are asked to return the product). The FSA issues Product Withdrawal Information Notices and Product Recall Information Notices to let consumers and local authorities know about problems associated with food. In some cases, a 'Food Alert for Action' is issued. This provides local authorities with details of specific action to be taken on behalf of consumers.
