

Update: SPAR recalls Chicken and Prawn paella because of undeclared allergens

SPAR is recalling SPAR Chicken and Prawn paella because it contains fish, molluscs, milk and wheat (gluten), which are not mentioned on the label. This means the product is a possible health risk for anyone with an allergy to fish, and/or molluscs, and/or an allergy or intolerance to milk or milk constituents, and/or to wheat (gluten). The best before date has been updated.

Product details

SPAR Chicken and Prawn paella	
Pack size	600g
Lot number	0105
Best before	October 2021
Allergens	Fish, Gluten (wheat), Milk, Molluscs

Risk statement

Allergen(s): Fish, molluscs, milk, and wheat (gluten)

This product contains fish, molluscs, milk and wheat (gluten), making it a possible health risk for anyone with an allergy to fish and/or molluscs, and/or an allergy or intolerance to milk or milk constituents and/or wheat (gluten).

Action taken by the company

SPAR is recalling the above product from customers and been advised to contact the relevant allergy support organisations, which will tell their members about the recall. The company has also issued a point-of-sale notice to its customers. These notices explain to customers why the product is being recalled and tell them what to do if they have bought the product. Please see the attached notice.

About allergy alerts

Sometimes there will be a problem with a food product that means it should not be sold. Then it might be 'withdrawn' (taken off the shelves) or 'recalled' (when customers are asked to return the product). Sometimes foods have to be withdrawn or recalled if there is a risk to consumers because the allergy labelling is missing or incorrect or if there is any other food allergy risk. When there is a food allergy risk, the FSA will issue an Allergy Alert.
