

# Wikinger UK recalls Wikinger Hot Dogs because of incorrect allergen labelling

Wikinger UK is recalling Wikinger Hot Dogs because they contain milk which is not correctly declared on the label. This means the product is a possible health risk for individuals with an allergy or intolerance to milk or milk constituents.

## **Risk statement**

### **Allergen(s): Milk**

This product contains milk making it a possible health risk for individuals with an allergy or intolerance to milk or milk constituents.

## **Action taken by the company**

Wikinger UK is recalling the above product from customers. The company has issued a point-of-sale notice to its customers. These notices explain to customers why the product is being recalled.

## **Our advice to consumers**

If you have bought the above product and have an allergy or intolerance to milk or milk constituents, do not eat it. Instead return it to the store from where it was bought for a refund.

### **About allergy alerts**

Sometimes there will be a problem with a food product that means it should not be sold. Then it might be 'withdrawn' (taken off the shelves) or 'recalled' (when customers are asked to return the product). Sometimes foods have to be withdrawn or recalled if there is a risk to consumers because the allergy labelling is missing or incorrect or if there is any other food allergy risk. When there is a food allergy risk, the FSA will issue an Allergy Alert.
