

Heron Foods recalls two Milka bar products because the allergens are not labelled in English

Heron Foods recalls two Milka bar products because the allergens are not labelled in English.

This means the products are a possible health risk for anyone with an allergy to almonds and/or hazelnuts and other nuts, and/or soya, and/or an allergy or intolerance to wheat and/or gluten and/or milk or milk constituents. Please refer to the table below for further details.

Risk statement

Allergen(s): Milk, Nuts (almonds, hazelnuts), Soya, Wheat (gluten).

These products contain milk, soya and nuts (almonds, hazelnuts), making them a possible health risk for anyone with an allergy to soya, and/ or nuts, and/or an allergy or intolerance milk or milk constituents.

They may also contain wheat (gluten) and other nuts. This makes it a risk for anyone with an allergy or intolerance to wheat and/or an allergy to nuts.

Action taken by the company

Heron Foods are recalling the above products from customers and have been advised to contact the relevant allergy support organisations, which will tell their members about the recall. The company has also issued a point-of-sale notice to its customers. These notices explain to customers why the product is being recalled and tell them what to do if they have bought the product. Please see the attached notice.

Our advice to consumers

If you have bought any of the above products and have an allergy to nuts, and/or soya, and/or an allergy or intolerance to wheat or gluten, and/or milk or milk constituent, please return it to where it was purchased for a full refund.

About allergy alerts

Sometimes there will be a problem with a food product that means it should not be sold. Then it might be 'withdrawn' (taken off the shelves) or 'recalled' (when customers are asked to return the product). Sometimes foods have to be withdrawn or recalled if there is a risk to consumers because the allergy labelling is missing or incorrect or if there is any other food allergy risk. When there is a food allergy risk, the FSA will issue an Allergy Alert.
