

# Interdragon International Trading Co and Asia Oriental Market recalls two products because they contain allergens which are not declared in English

Interdragon International Trading Co Ltd and Asia Oriental Market Ltd are recalling products because they contain various allergens which are not listed in English on the label. This means the products contain allergens which have not been declared in English making them a possible health risk to anyone with an allergy or intolerance to milk or milk constituents, an allergy or intolerance to wheat or gluten and/or an allergy or intolerance to egg.

## Product details

|--------------|-----------|
| Product code | All codes |
| Pack size    | All sizes |
| Allergens    | Milk      |

## Risk statement

The above products contain milk, wheat and egg, which have not been declared in English in the label. This makes these products unsafe for anyone with an allergy or intolerance to milk or milk constituents, an allergy or intolerance to wheat or gluten and/or an allergy or intolerance to egg.

## Action taken by the company

Interdragon International Trading Co Ltd and Asia Oriental Market Ltd are recalling the above products from customers and been advised to contact the relevant allergy support organisations, which will tell their members about the recall.

## **Our advice to consumers**

If you have bought the above products and have an allergy or intolerance to milk or milk constituents, an allergy or intolerance to wheat or gluten and/or an allergy or intolerance to egg do not eat them. Instead return it to the store from where it was bought for a full refund.

### **About allergy alerts**

Sometimes there will be a problem with a food product that means it should not be sold. Then it might be 'withdrawn' (taken off the shelves) or 'recalled' (when customers are asked to return the product). Sometimes foods have to be withdrawn or recalled if there is a risk to consumers because the allergy labelling is missing or incorrect or if there is any other food allergy risk. When there is a food allergy risk, the FSA will issue an Allergy Alert.
