G

Regulator

Objective: We **must** directly deliver official controls in meat, dairy and wine businesses (including exporters)

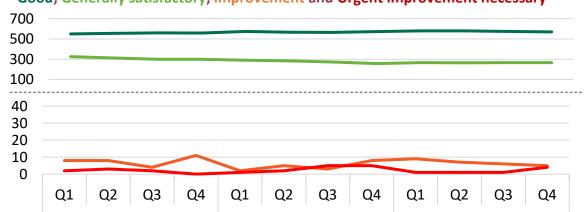

Overall RAG

Meat, wine and dairy audit

What does overall meat food business operator (FBO) compliance show?

Measure		2024/25 Target	Previous period (Q3)	This period (Q4)	Previous RAG	This RAG	
No. Meat FBO audits	E and W	146/Q	140	157	G	G	
completed	NI	6/Q	5	6	G	G	
% Meat FBO audits completed by agreed	E and W	90%	96.2%	98.1%	G	G	
timescales	NI	100%	100%	100%	G	G	
% Meat FBOs where	E and W	<1.5%/M	0.1%	0.5%	G	G	
urgent improvement is necessary	NI	<1.5%/M	0%	0%	G	G	

Number of meat FBOs by compliance rating by the three nations

Good; Generally satisfactory; Improvement and Urgent improvement necessary

Are we delivering our statutory obligations in wine premises?

Measure	Ambition	Previous period (Q3)	This period (Q4)	Previous RAG	This RAG
Visits carried out in year (quarterly)	237	261	280	G	G
Visits carried out in year (cumulative)	948	879	1159	G	G

Are we delivering our statutory obligations in dairy premises?

	Measure		Ambition	Previous period (Q3)	This period (Q4)	Previous RAG	This RAG
	% dairy visits completed within	E and W	98.4%	99.4%	98.9%	G	G
1	frequency	NI	100%	100%	100%	G	G
	RCDM sampling - % of failed samples due to harmful bacteria	E and W	0%	1.2%	4.5% 5/111	G	R
	harmful bacteria	NI	0%	100%	50% 1/2	G	Α

E&W RCDM: 4 out of the 5 failed samples for Q4 came from the same farm. This farm was part of an incident investigation and sales ceased immediately and did not recommence until the investigation was concluded. Additional sampling was undertaken as part of the investigation.

NI RCDM: 2 RDCM samples for Q4. 1 sample result was noncompliant. Sales ceased until a compliant sample was received.

Responsible Director: Junior Johnson Supported by: Anjali Juneja

Regulator

Objective: We **must** directly deliver official controls in meat, dairy and wine businesses (including exporters)

Overall RAG

Official Controls

Do we have the right resources to deliver? (England and Wales only)

Measure	Ambition	Previous period (Q3)	This period (Q4)	Previous RAG	This RAG
% TROV workforce	0%	17%	14%	G	G
% OV workforce MRCVS	100%	83%	86%	G	G
MHI attrition (FSA)	<8%	1.5%	3.6%	G	G
MHI resourcing (EMHI vs CMHI from PP) %	50:50	44:56	46:54	Α	G

TR: Temporarily Registered (with Royal College Veterinarian Surgeons - RCVS)

OV: Official Veterinarian (employed by SDP)

MRCVS: Member of the RCVS

SDP: Service Delivery Partner

CMHI: Contract Meat Hygiene Inspector

EMHI: Employed Meat Hygiene Inspector

MHI: Meat Hygiene Inspector

Approval of new meat FBOs

Are approvals of new meat establishments delivered in line with legislative requirements?

Measure		2024/25 Target	Previous period (Q3)	This period (Q4)	Previous RAG	This RAG
	Е	90%	89% (18)	95% (19)	A	G
% conditional approvals under 3 months	W	90%	100% (2)	100% (3)	G	G
	NI	100%	100%	100% (3)	G	G
	Е	100%	100% (18)	100% (20)	G	G
% full approvals under 6 months	W	100%	100% (2)	75% (4)	G	R
	NI	100%	100%	100% (1)	G	G

Conditional approval: Granted subject to any conditions or limitations that apply. **Full approval:** Establishment meets the relevant requirements of food law.

Annex A: RAG tolerances matrix summary

RAG (Red-Amber-Green) ratings, also known as 'traffic lighting,' are used to summarise indicator values, where green denotes a 'favourable' value, red an 'unfavourable' value and amber an 'early warning' value. It aims to introduce a level of consistency in how the measures in the performance reporting framework are presented. However, by the nature of the activities, the overall service area and measure-level RAG matrix will contain some level of subjectivity and will need to be interpreted carefully alongside the accompanying cover paper. RAGs are reviewed alongside the commentary and apply appropriate check and challenge to ensure consistency of application and analysis of trend over time.

RAG	Description / Criteria		
Green	Performance within target/tolerance. Not expected to cause any damage or minor damage with no lasting effect to the service area or ability to meet targets / goals / objectives. Utilise existing capacity to actively monitor with any expected recovery / time to resolve 3 months or less.		
A <mark>mbe</mark> r	Performance outside of target/tolerance and likely to cause moderate damage with little to short- term effects to the service area or ability to meet targets / goals / objectives. Targeted effort required to resolve with expected recovery / time taken 3-12 months.		
Red	Performance substantially outside agreed tolerances, with long-term effects to the service area or ability to meet targets / goals / objectives. Significant effort required and an immediate crucial priority with expected recovery / time to resolve 12 months or more.		

Service areas

We use the matrix above to calculate the overarching service area RAG rating. The aim is to provide a sense of the overall health of activities and confidence in delivering against statutory obligations, objectives and targets in that area.

Individual measures

As per the overarching service area, we broadly use the matrix above to set RAGs for individual key performance indicators with a key focus on risk to delivery. This allows us to easily identify strengths and areas that require further attention. To set RAG tolerances we determined what we were trying to achieve and identified targets / ambitions / benchmarks for each KPI to provide a starting point for our tolerance ranges creating bands for what constitutes red, amber and green. Once determined, working with subject matter experts, we then defined the amount of risk we were willing to accept and therefore, the boundaries of acceptable performance in the delivery of objectives or targets. This helps to direct the performance conversation and aid decision-making around performance achievements and / or improvements.

Sitting behind the performance report we have a supporting database that records the agreed RAG rating tolerances for each measure. As with the performance measures the RAG ratings are a guide to aid the performance conversation and are periodically reviewed to maintain their effectiveness as the situation or the importance of the performance measure evolves.
